City: Malang, Indonesia

SUMMARY

Bachelor's degree in Computer Science with a specialization in Data Science and Machine Learning. Experience in processing and analyzing data, as well as building deep learning models using CNN and transfer learning. Proficient in Python, SQL, and data visualization to support data-driven decision making. Accustomed to working with large datasets, performing data preprocessing, and comprehensively evaluating model performance.

EDUCATION

University of Muhammadiyah Malang 2020 — 2025
Bachelor of Informatics (GPA: 3.55 / 4.oo), Malang, Indonesia
Relevant Coursework: Data Science; Machine Learning; Data Analytics; Software Engineering; Operating Systems; Algorithms; Artificial Intelligence

PROJECT

Web Attendance System - Personal Project **2026**

- Built a secure web-based attendance system with authentication and role-based access (admin & employee)
- Developed attendance tracking features including check-in/check-out with timestamp recording
- Designed relational database schema using MySQL
- Implemented user management and access control system

Autism and Non-Autism Classification **2025**

- Developed a deep learning model using EfficientNet-B3 to classify images into the Autism and Non-Autism categories.
- Performed image preprocessing and exploratory data analysis (EDA) to examine the characteristics of dataset.
- Applied transfer learning to support image feature extraction and classification.
- Achieved 92% classification accuracy in model evaluation.

Sentiment Analysis Cyberbullying **2024**

- Developed a deep learning model using Long Short-Term Memory (LSTM) to classify text related to cyberbullying.
- Performed text preprocessing and data cleaning to prepare textual data for model training.
- Applied Natural Language Processing (NLP) techniques to support text classification.
- Achieved 93% classification accuracy in model evaluation.

Sentiment Analysis E-Commerce Review **2024**

- Developed a sentiment analysis model to classify e-commerce customer reviews using Support Vector Machine (SVM).
- Applied TF-IDF (Term Frequency-Inverse Document Frequency) to extract numerical features from textual reviews.
- Performed text preprocessing to prepare review data for machine learning classification.
- Evaluated model performance and achieved 86% accuracy in sentiment classification.
- Analyzed customer feedback to identify sentiment patterns and understand suctomer opinions toward products.

EXPERIENCE

South Hulu Sungai Student Association, Malang Region **Dec 2022 - Dec 2024**
Head of Department of Interests and Talents

- Design and implement work programs to develop the organization's interests and talents, such as internal competitions, arts training, and sports activities.
- Organize routine activities and annual events to increase member participation and foster a sense of community.
- Lead the department team in the planning, implementation, and evaluation of work programs.
- Manage the activity budget transparently and responsibly, and prepare activity accountability reports
- serve as a liaison between members and external parties in organizing collaborative activities

South Hulu Sungai Student Association, Malang Region **Dec 2021 - Dec 2022**
Member of Department of Interests and Talents

- Design and implement work programs to foster and develop members' interests and talents in the arts and sports
- Manage the department's finances, including preparing activity budgets, recording expenses, and preparing simple financial reports on a regular basis
- Document and evaluate activities as part of accountability reports and to improve future work programs

South Hulu Sungai Selatan Regency Scout Youth Council **Jan 2019 - Oct 2020**
Member of the Research and Technology Department

- Supported research and information gathering to assist organization planning and program development
- Assisted utilizing technology to support organization activities and improve information management

SKILL

Data Analysis with Python.
Machine Learning Development.
Data Science Application.
Web Development.
Microsoft Office.
Adobe Photoshop.
Adobe Illustrator.

CERTIFICATES

- Fundamental SQL Using SELECT statement by DQLab
- Python for Data Professional Beginner by DQLab
- Kickstart UI UX Design Journey by Rakamin
